### **RITSEC CTF**

The RITSEC CTF was held from November 15th - 17th. This year we had over 1,200 teams and over 2,200 users. Thank you to all the alumni who submitted challenges and helped with monitoring the discord, we couldn't have done it without your help. Biggest thanks to our Competition Architect, Quintin Walters. He may not have gotten a lot of sleep, but he put on a great competition!

### **WiCyS Friendsgiving**

This is the first year for our Women in CyberSecurity Interest Group. So, to celebrate the group went to Ferrari's Pizza to have a Friendsgiving. It has been amazing to see this group grow.

As always, feel free to tune into our weekly meetings via our twitch stream ([stream.ritsec.club](https://stream.ritsec.club)).
